

Hope Beneath Our Feet: Restoring Our Place in the Natural World (Io Series)

Filesize: 5.39 MB

Reviews

The book is straightforward in go through better to understand. it had been writtern quite flawlessly and valuable. You can expect to like the way the author publish this book.

(Reyes Murphy)

HOPE BENEATH OUR FEET: RESTORING OUR PLACE IN THE NATURAL WORLD (IO SERIES)

North Atlantic Books, 2010. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "Wonderfully uplifting and inspiringly diverse perspectives on aligning ourselves with the fullness of our own possibilities as individuals and as a species. The bottom line: flavor and savor every moment, especially the toughest ones, with not-knowing, with good will, imagination, kindness, wisdom, humor, community, and action. My father-in-law, Howard Zinn, said it so well: "Small acts, when multiplied by millions of people, can transform the world." -Jon Kabat-Zinn, author of *Full Catastrophe Living* and *Coming to Our Senses* "Hope Beneath Our Feet is just that. With penetrating clarity it takes us into the depths of our essential nature: our courage, brilliance, and resilience. We are called to take advantage of the greatest opportunity for conscious self-evolution the human species has ever been given. A real masterwork." -Barbara Marx Hubbard, author of *Conscious Evolution: Awakening the Power of Our Social Potential* and founder of the Foundation for Conscious Evolution "This is a wonderful, inspirational book composed of works by thoughtful, intelligent, and caring people discussing the fact that we and our fellow species face extinction if we proceed with life as we have in the last two hundred years. As I continue to struggle with the monumental challenges facing the human psyche, the hope and new ideas embedded in these essays have lifted my flagging spirits. Essential reading." -Helen Caldicott, author of *Nuclear Power Is Not the Answer to Global Warming* and *If You Love This Planet* "There is no more meaningful action we can take than to struggle on behalf of life on this planet. The profoundly hopeful and inspiring essays in this anthology help us remember our place in the web of life and recover a deep awareness of our own ecological identity, motivating us to continue our..."
