

National Water Program 2012 Strategy: Response to Climate Change

By U S Environmental Protection Agency

Createspace, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.For the past forty years, federal, state, tribal, and local governments have worked diligently to identify and address water pollution problems. As a result, our drinking water is safer, our rivers, lakes, and coastal waters are cleaner, and the health of our wetlands and watersheds is improved. In 2008, the EPA National Water Program Strategy: Response to Climate Change described the emerging scientific consensus on the potential impacts of climate change on water resources. Increasingly, impacts are being observed in communities across the nation and are expected to continue, including: Increases in water pollution problems due to warmer air and water temperatures and changes in precipitation patterns; Impacts on water infrastructure and aquatic systems due to more extreme weather events; Changes to the availability of drinking water supplies; Waterbody boundary movement and displacement; Changing aquatic biology; Collective impacts on coastal areas; and Indirect impacts due to unintended consequences of human response to climate change. Despite increasing understanding of climate change, there still remain questions about the scope and timing of climate change impacts, especially at the local scale...

Reviews

It is an awesome publication which i actually have ever read through. it had been writtern really properly and valuable. I found out this book from my i and dad recommended this pdf to discover.

-- **Doyle Schmeler**

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
