The Lake of Nicaragua is, without any exception, the most dangerous sheet of water. I ever sailed over. The Transit Company has already lost seven steamers in it, every one of which was simply blown ashore or swamped. Winds gather behind the volcanic peaks of Ometepec, Madera, and Zapatero, and sweep round with whirlwind violence from half a dozen points at once. A calm is rare, but a storm or tornado is the...

### Reviews

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*
