Equipped with a lightning eidetic memory and a 4th degree black belt, Tracy is in reality a Pentagon Intelligence covert operative spy using her fabulous modeling career as a cover. She assumes command of the military retrieval of a fallen U.S. top secret satellite deep in the snowy wastelands of the Chinese Himalayas and encounters a most horrific ancient creature of demonic presence in a battle to the death. The Kirata Shu reeks of espionage, intrigue, sex, and the power struggles of two of America's most formidable super spies atop one of the highest peaks in Eastern Asia, both brought together in a life or death struggle for the completion of their missions. With the lives of those in her command in peril and fighting the severe elements and frozen terrain of the high Himalayas, all the while menaced by the mysterious demonic creature in their midst, Tracy must battle to win the day against the creature as well as Chinese and Russian agents also bent upon locating the downed satellite. Only the fates know if her's will be the day of victory or defeat.
