### ***Reviews***

*It is one of the best books. Indeed, it really is a play, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

Date :2010-08-26 version 1. This book is the opening introduction. and to explore how students learn linear algebra. matrices and operations on the sub-chapter. the determinant . invertible matrix. block matrix. the vector group of rank and rank of the matrix. linear equations. vector spaces and inner product of orthogonal matrices. similar matrices and eigenvalues. real symmetric matrices with real quadratic form eight special counseling line theory and linear algebra problem-solving practice. Highlights include the contents of each topic. clear up doubts. Example refined solution. synchronization exercises and answers to five simultaneous exercises reference plate. Next is a comprehensive testing and improvements. including three mid-term papers and seven analog simulation of the end of paper for students to self-test purposes. There are also 2005 and 2008 national graduate entrance examination papers in mathematics linear algebra questions for reference. This book is suitable as a professional science and engineering undergraduates. junior college students learning reference. Contents: Preface Introduction and students talk about the chapter on linear algebra problem-solving based learning and problem-solving training in the first matrix and the operator about the content to view fine example to clear up doubts simultaneous solution of simultaneous practice exercises refer to the answer about the determinant of 2 To view the contents of the solution clear up doubts fine example synchronization synchronization Exercises to practice answers to Part 3 invertible matrix. the matrix block content to view fine example to clear up doubts simultaneous solution of simultaneous exercises practice test questions refer to the answer phase of the construction phase test questions I answer to the first reference 4 about the rank of the vector...
